PackshotCreator

These programmed trainings have been conceived to **maximize their usage during a minimum amount of time**. Our product photography experts have one single goal: **to provide a precise, efficient and distinct onsite training**. At the end of the training, you will be able to easily use, by yourself, the Packshot*Creator* solution.

Online Training

1 hour   **Online** via screensharing   **2 attendees**   **250 €** 100€ / additional hour

The Online Training is an online training, realized via a screensharing and a phone call to approach the main features of the software, and the workflows to establish, according to your needs.

Essential Training

1/2 day

Onsite   **3 attendees** 100€/ additional hour   **750 €***

Supported by a technical expert, the Essential training permits in a few hours, to target the main features of the software needed for your production.
Our expert wil teach you how to turn a simple tool into a more functional and productive one.

Train & Refresh

1 day + 3 refreshes of 1 hour

Onsite   **4 attendees** 100€/ additional hour   **1 195 €***

This fragmented training works as a reminder. After the onsite training, you will have access to an online 3 hour «mini training» to refine your knowledge, or to even train a new user.

Master Training

1 to 3 days   **Onsite**   **5 attendees** 100€/ additional hour   **975 €*** 1 000€/ additional day

Your dedicated trainer will help you to create and assess different visual types of your products. You will establish workflows together and organize your production pursuing a single goal: to make your return on investment great again.
